Dates Occupation or position held Main activities and responsibilities	1990's High responsibility positions In charge of the direct coordination of the professional and military education performed within the General Directorate for Prisons. Subsequent to the fundamental changes incurred as to the training of employees, I suggested the Romanian Government that all the officers working in prison administration (who graduated the School for Officers from Baneasa) to be enrolled in higher education. Thus, I accomplished a national program with the result that 250 officers graduated the faculty of law in the next five years. In this period, there was a general inclusion on executive positions of non-commissioned officers that graduated high-school. A personal contribution to this process was the fact that I brought specialists from different domains to develop resocialization programs.

	<p>I have always enjoyed a good professional reputation and I have been appreciated for very good results at the workplace; consequently, my professional career has followed a promoting path except for 1997, when I was persecuted by the Ministry of Justice. Thus, I and other officers and generals have been obliged to quit my position in prison administration. All the accusation brought against me proved to be ungrounded; however, I have not taken legal action and the Ministry appreciated that my reputation was not damaged. The subsequent professional tasks that I fulfilled are a proof in this respect. My health state is good, corresponding to my age. I do not have distinctive features, physical and psychical signs; I have not suffered surgery interventions and I do not suffer from illnesses that could affect my mental capacity.</p> <p>I have been performed didactical and pedagogical activities for over 25 years.</p>
